Student activity 3.2

Raja and Ravi entered into a partnership. They orally agreed to share profits and losses in the ratio of 2:1. At the end of the year, Raja demands 3/4 of the profit as he worked more than Ravi. Ravi does not agree to this. How can this situation be dealt with?

A, B, C and D are partners in a firm. There is no partnership deed. How will you deal with the following?

(i) A has contributed maximum capital. He demands interest on capital at 12% per annum.
(ii) B has withdrawn ₹ 1,000 per month. Other partners ask B to pay interest on drawings @ 10% per annum to the firm. But, B does not agree to it.
(iii) Loan advanced by C to the firm is ₹ 10,000. He demands interest on loan @ 9% per annum. A and B do not agree with this.
(iv) D demands salary at the rate of ₹ 5,000 per month as he spends full time for the business. B and C do not agree with this.
(v) A demands the profit to be shared in the capital ratio. But, B, C and D do not agree.

Solution

Since there is no partnership deed, provisions of the Indian Partnership Act, 1932 will apply.

(i) No interest on capital is payable to any partner. Therefore, A is not entitled to interest on capital.
