10. In the Paris Agreement at the COP21 in Paris on 12 December 2015 all countries agreed to work to limit global temperature rise to

a) Below 2 degrees Celsius,

b) Above 2 degrees Celsius

c) Between 2 degrees Celsius and 4 degrees Celsius

d) Between 2 degrees Celsius and 6 degrees Celsius

II. Very short answers

1. What did the Brundtland Report Highlight?
2. Explain Goal 15 in sustainable development.
3. What are the two main techniques of rain water harvesting?
4. Expand and define the term EIA.

III. Short answers

1. What is meant by 'Sustainable Development'? State any two primary goals of sustainable development?
2. State any three reasons for climate change.
3. Write a note on organic farming.
4. Write any three statements on the need for rain water harvesting.
5. Name six countries achieving sustainable goals the fastest.

IV. Detailed answers

1. Explain the Environmental Impact Assessment in India.
2. Describe the effects of climate change.
3. Explain the process used in the environmental component of EIA?

V. Practice

Project :1.Study of your local area.

- Draw a rough map of your neighbourhood (villages, ward, town).
- Get the information about your local area in the past through the older family members or neighbours.
- Compare it with the present rough map
- Write a short note on those areas in your locality that require sustainability.
