

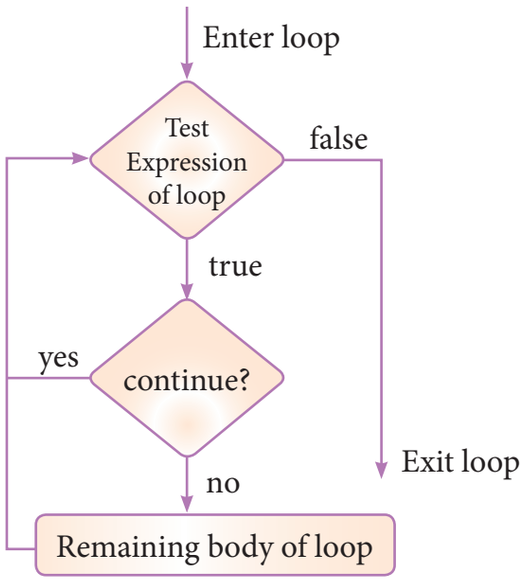

Fig 6.8 Working of continue statement

The working of continue statement in **for** and **while** loop is shown below.

```
for var in sequence:
        # code inside for loop
        if condition:
                continue
                #code inside for loop
#code outside for loop
while test expression:
        #code inside while loop
        if condition:
                continue
                #code inside while loop
#code outside while loop
```

Example 6.16: Program to illustrate the use of continue statement inside for loop

```
for word in "Jump Statement":
    if word = = "e":
        continue
    print (word, end = ' ')
print ("\n End of the program")
```

Output:

```
Jump Statmnt
End of the program
```
