regard to the heightening concerns about the hazardous wastes and the public resistance to it resulting in an upsurge of disposal costs. It created a market for hazardous wastes particularly in the environmentally-less-conscious Least Developed Countries (LDCs) which offered cheap disposal alternatives. The Convention sought to reduce the trans-boundary movement of hazardous wastes by taking necessary steps to minimize the creation of such wastes along with measures to prohibit the shipment of such substances from the developed world to the LDCs.

United Nations Conference on Environment and Development, 1992

The United Nations Conference on Environment and Development, which also earned fame as the Earth Summit, was held on during 3-14 June 1992 at Rio de Janeiro. The Summit which is credited to be the biggest international conference in the history of international relations, focussed on myriad issues ranging from patterns of production to alternative sources of energy, public transportation and the growing need for environmental awareness. Agenda 21, the Rio Declaration on Environment and Development, the Statement of Forest Principles, the United Nations Framework Convention on Climate Change, and the United Nations Convention on Biological Diversity are the documental results of the two-week summit. The Rio process also triggered the constitution of a couple of follow-up mechanisms such as the Commission on Sustainable Development, Inter-Agency Committee on Sustainable Development, and the High-level Advisory Board on Sustainable Development. The conference was also regarded as the 'Parliament of the World'.

Activity

Must watch Documentary film

Director Davis Guggenheim eloquently weaves the science of global warming with former USA Vice President Al Gore's

personal history and lifelong commitment to reversing the effects of global climate change in the most talked-about documentary of the year.

An audience and critical favorite, "An Inconvenient Truth" makes the compelling case that global warming is real, man-made, and its effects will be cataclysmic if we don't act now. Gore presents a wide array of facts and information in a thoughtful and compelling way: often humorous, frequently emotional, and always fascinating. In the end, An Inconvenient Truth accomplishes what all great films should: it leaves the viewer shaken, involved and inspired.

UN Convention to Combat Desertification, 1994

As the only legally binding international agreement connecting environment and development on lines of sustainable land management, the 1994 UN Convention to
