The Sustainable Development Goals adopted are as follows	
Goal 1	End poverty in all its forms everywhere
Goal 2	End hunger, achieve food security and improved nutrition and promote sustainable agriculture
Goal 3	Ensure healthy lives and promote well-being for all at all ages
Goal 4	Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all
Goal 5	Achieve gender equality and empower all women and girls
Goal 6	Ensure availability and sustainable management of water and sanitation for all
Goal 7	Ensure access to affordable, reliable, sustainable and modern energy for all
Goal 8	Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all
Goal 9	Build resilient infrastructure, promote inclusive and sustainable industrialization and foster innovation
Goal 10	Reduce inequality within and among countries
Goal 11	Make cities and human settlements inclusive, safe, resilient and sustainable
Goal 12	Ensure sustainable consumption and production patterns
Goal 13	Take urgent action to combat climate change and its impacts
Goal 14	Conserve and sustainably use the oceans, seas and marine resources for sustainable development
Goal 15	Protect, restore and promote sustainable use of terrestrial ecosystems, sustainably manage forests, combat desertification, and halt and reverse land degradation and halt biodiversity loss
Goal 16	Promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels
Goal 17	Strengthen the means of implementation and revitalize the global partnership for sustainable development

Paris Agreement, 2016

The Paris Agreement (L'accord de Paris in French) is a multilateral agreement within the precincts of the UNFCCC. It provides an enhanced framework for the mitigation of greenhouse gases emission, adaptation and finance starting in the year 2020. It was opened for signature on 22 April 2016 and came into force on 4 November 2016. As an instrument to combat climate change, the Paris Accord aims to keep global temperatures "well below" 2.0 C (3.6 F) above pre-industrial times and "endeavour to limit" them even more to, 1.5 C. It also helped reach a consensus on limiting the human-driven greenhouse gases emission to the levels naturally absorbable by trees, soil and oceans, between 2050 and 2100.
