century and a government leather factory was set up in 1860 in Kanpur. The first Indian-owned National Tannery was established in 1905 in Calcutta. The gold mining in Kolar also started in the late nineteenth century in the Kolar mining field, Mysore.

The inter-war period registered growth in manufacturing industries. Interestingly the growth rate was far better than Britain and even better than the world average. After a short slug in 1923–24, the output of textile industry began to pick up. During the interwar period, the number of looms and spindles increased considerably.

In 1929–30, 44 per cent of the total amount of cotton piece goods consumed in India came from outside, but by 1933–34, after the Great Depression, the proportion had fallen to 20.5 percent. Other two industries which registered impressive growth were sugar and cement. The Interwar years saw a growth in the shipping industry too. The Scindia Steam Navigation Company Limited (1919) was the pioneer. In 1939, they even took over the Bombay Steam Navigation Company Ltd., a British concern. Eight Indian concerns were operational in this sector. A new phase of production began with the Second World War, which led to the extension of manufacturing industries to machineries, aircrafts, locomotives, and so on

Industrial Development in Tamilnadu during the Depression

The industrial growth in the Madras Presidency was substantial. In Coimbatore, after Stanes Mill (Coimbatore Spinning and Weaving Mills) was established in 1896, no other mill could come up. The objective conditions created by the Depression like fall in prices of land, cheapness of labour and low interest rates led to the expansion of textile industry in Coimbatore. Twenty nine mills and ginning factories were floated in the Coimbatore area during 1929-37. A cement factory started at Madukkarai in Coimbatore district in 1932 gave fillip to the cement industry

Coimbatore Stanes Mill

in the state. The number of sugar factories in the province rose from two to eleven between 1931 and 1936. There were also proliferation of rice mills, oil mills and cinema enterprise during this period.

Summary

- The 1920s and 30's witnessed a surge of radicalism, a totally different strand of nationalism.
- Communist Party of India was founded and the communist activities ended in Kanpur Conspiracy and Meerut Conspiracy Cases
- Young women also participated in the revolutionary movements and Kalpna Dutta was one among them
- Great revolutionaries like Bhagat Singh, Rajguru, Sukdev and Surya Sen attained martyrdom for the cause of Indian independence.
- 1930s was a period of Great Depression which had impacted globally. India as a colony of Great Britain was worst hit. India's industrial development from the second half of the nineteenth century to the end of the inter-war years was without any prompting from the British and was mainly due to the conditions created first by the First World War and later by the Great Depression.
