### 8. Reappraisal of Objectives

An organisation is a part of the dynamic world. There are a lot of changes within short period. The survival and growth of a modern business organisation largely depends upon putting up with the changing conditions. So, the top management executive should review the organisation's objectives to frame the objectives according to the changing situation.

## 3.05 Advantages of MBO

The advantages of MBO are explained below:

1. Managers are involved in objectives setting at various levels of management under MBO and this commitment ensures hard work to achieve them.
2. MBO process helps the managers to understand their role in the total organisation.
3. Manager recognises the need for planning and appreciates the planning.
4. MBO provides a foundation for participative management. Sub-ordinates are also involved in goal setting.
5. A department does not work at cross purpose with another department. In other words, each department's objectives are consistent with the objectives of the whole organisation.
6. Systematic evaluation of performance is made with the help of MBO.
7. MBO gives the criteria of performance. It helps to take corrective action.
8. Delegation of authority is easily done with the help of MBO.
9. MBO motivates the workers by job enrichment and makes the jobs meaningful.
10. The responsibility of a worker is fixed through MBO.
11. Decision is taken by the management very quickly. The reason is that each worker knows the purpose of taking a decision and does not oppose the decision.

## 3.06 Disadvantages of MBO

The disadvantages of MBO arise due to the application of the MBO which are discussed below:

1. MBO fails to explain the philosophy; most of the executives do not know how MBO works? what is MBO? and why is MBO necessary? and how participants can benefit by MBO?
2. MBO is a time consuming process. Much time is needed by senior people for framing the MBO. Next,it leads to heavy expenditure and also requires heavy paper work.
3. MBO emphasises only on short-term objectives and does not consider the long-term objectives.
4. The status of subordinates is necessary for proper objectives setting. But, this is not possible in the process of MBO.
5. MBO is rigid one. Objectives should be changed according to the changed circumstances, external or internal. If it is not done, the planned results cannot be obtained.

# MANAGEMENT BY EXCEPTION (MBE)

## 3.07 Meaning of MBE

Management by exception is an important principle of managerial control suggested by the classical writers on management. It is based on the belief that an attempt to control everything results in controlling nothing. Management by exception is a style of business management that focuses on identifying and handling cases that deviate from the norm.

For example, the production manager establishes quality control standards wherein five defects per 100 units produced are permissible.
