Example:

1. Chemicals, detergent chalk, urea caustic soda, etc. are added to make the milk dense and white.
2. Mixing of stones with grains
3. Mixing of coconut oil with palmolein
4. Honey is adulterated with water and table sugar to enhance the quantity
5. powdered rice/wheat is adulterated with starch
6. Coffee powder is adulterated with tamarind seed
7. Spices like turmeric powder is adulterated with methanol
8. Papayas seed is added to black pepper
9. Chilli powder is adulterated with brick powder

3. Duplicate or Spurious goods

Duplicate products of popular products are illegally produced and sold. Duplicates are available in plenty in the market for every original and genuine parts or components like automobile spare parts, blades, pens, watches, radios, medicines, jewellery, clothes and even for currency notes. Duplicate medicines are sold in large measure, from Cape to Kashmir. A consumer is not in a position to distinguish duplicate from the original.

4. Artificial Scarcity

There are certain situations where the shop-keepers put up the board 'No Stock" in front of their shops, even though there is plenty of stock in the store. In such situations consumers who are desperate to buy such goods have to pay hefty price to buy those goods and thus earning more profit unconscientiously. Even in Cinema houses, board may hang in the main entrance 'House Full' while cinema tickets will be freely available at a higher price in the black market.

5. Sub-standard

On opening a packet or sealed container one may find the content to be of poor quality. If defective or damaged items are found in a pack, a consumer finds it difficult to exchange the defective one for good one and consumers have to blame for lack of attention one cannot return it and the consumers have tendency to blame their carelessness or fate for having bought such sub-standard product. Whenever goods are bought, seller try to avoid raising bill or consumers do not demand bill as a matter of right. This prevents the consumers from escalating the complaint against the seller where the product happens to be sub-standard. Some seller give bills which contain a stipulation that goods sold cannot be taken back. Thus gullible consumers are easily and legally cheated.

6. Product Risk

Whenever the usage of goods is likely to cause danger or hurts to customers, manufactures have to forewarn the consumers of various sources of dangers involved in the products and the precautionary measures to be taken by the consumers. In absence of such information or warnings consumers are more likely to encounter risks while using the risky products.

7. Warranty and Services

In case of consumer durable goods like televisions, washing machines, refrigerators, cars, two wheelers and air conditioners etc. free service is guaranteed only for few years called warranty period. But in reality free
