This story shows how people react to different situations in life. Some become weak and soft like the potatoes and some others harden like the egg. The best way to face difficulties is illustrated by the coffee beans which change their colour and add flavour.

Now use these ideas and prepare a speech on the topic 'The importance of developing a positive attitude' and deliver the speech in the school assembly.

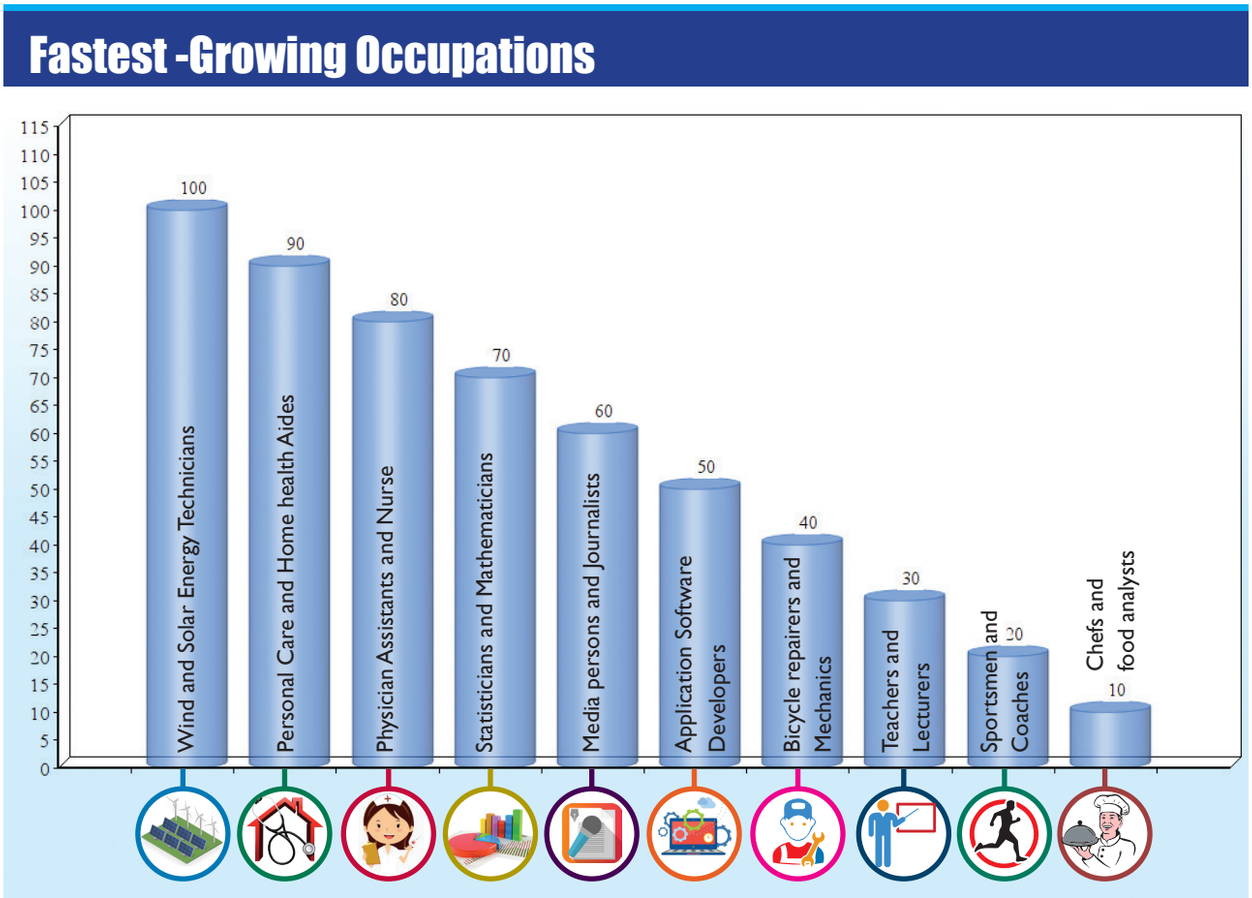

Reading

Non-verbal Representations

Presenting information using tables, graphs and charts is a common practice in scientific and technical writing. This is because through graphs and charts, scientific data can be presented in a clear and precise manner. Bar charts, graphs, tree diagrams, organizational charts, flow charts and pie charts are the frequently used pictorial or non-verbal representations. The table is the simplest and the most common direct graphic form used for presenting information.

Look at the following non-verbal representation. Based on your understanding and inference, write a paragraph on career trends in the next decade.
