Botany Career Opportunities and Job Prospects

The amount of diversity in the field of Botany gives it students to choose their specializations as per their choice, aptitude and interests. One can be a part of any reputed organization as a

Plant explorer: Botanist with a passion for plants who could be a photographer, writer, expeditioner, etc

Conservationist: Is an individual who works for the conservation of the environment and is often linked to organisations working for the cause.

Ecologist: A person who works for the eco-system and a balanced environment.

Environment consultant: Some botanists qualify to work as environmental consultants, providing inputs and advice for the conservation of the environment.

Horticulturist: A horticulturist knows the science behind different plants, flowers, and greenery. They conduct research in gardening and landscaping, plant propagation, crop production, plant breeding, genetic engineering, plant biochemistry, and plant physiology.

Plant biochemist: Biochemists study the chemical and physical principles of living things and of biological processes, such as cell development, growth, heredity, and disease.

Molecular biologist: Molecular biologists conduct research and academic activities. The research component involves the study of biological structures in well-equipped laboratories with advanced technology to help them explore complex molecular structures and their particular functions. The equipment may include microscopes, lab centrifuges, computers with specific software that allows them to analyze obtained data, and many more.

The knowledge of plant sciences is essential for development and management of forests, parks, waste lands, sea wealth etc.

Few of the industries which one can work with are:

- Chemical Industry
- Food Companies
- Arboretum
- Forest Services
- Biotechnology Firms
- Oil Industry
- Land Management Agencies
- Seed And Nursery Companies
- Plant Health Inspection Services
- Biological Supply Houses
- Plant Resources Laboratory
- Educational Institutions
- National Park Service
- Departments of Conservation and Land Management
- Public Health Service
- Department of Agriculture
- Forest Service
- Departments of Environmental Protection
- Departments of Agriculture and Water
- Nature Conservancy
- Environmental Protection Agency
- Medical Plant Resources Laboratory
- Several foreign countries provide platforms for Msc in Botany graduates to build up a good career in the field of Botany. Several undertakings functioning abroad demand the service of Msc in Botany graduates.

Research Institutes involved in Plant Science

a. Affiliated to Ministry of Environment and Forests

- Centre for Environment Education, Ahmedabad
- Forest Survey of India, Dehra Dun
- Indian Institute of Forest Management, Bhopal
- Institute of Forest Genetics and Tree Breeding, Jorhat

b. Affiliated to Indian Council of Agricultural Research

- Central Agricultural Research Institute, Port Blair
- Central Research Institute for Jute and Allied fibres, Barrackpore
- Directorate of Oilseeds Research, Hyderabad
- Indian Grassland and Fodder Research Institute, Jhansi
- Jute Technological Research Laboratories, Calcutta
- National Centre for Mushroom Research and Training, Solan

c. Affiliated to Council of Scientific and Industrial Research

- Central Drug Research Institute, Lucknow
- Central Food Technological Research Institute, Mysore
- National Environment Engineering Research Institute, Nagpur

d. Affiliated to Indian Council of Medical Research

- Central Council for Research in Unani Medicine, Delhi
- Central Council for Research in Ayurveda and Sidda, Delhi

e. Research Academics

- Indian Academy of Science, Bangalore
- Indian Botanical Society, Delhi
- Indian Mycological Society, Delhi
- Indian National Science Academy, Delhi
- Indian Society for Plantation Crops, Kasargod.
