V Practice

1. Identify the alternate energy such as wind, solar, geothermal, hydroelectric, bio fuels.

word	symbol

1. Energy generated in a way that does not use up natural resources

word	symbol

2. Resources that can be replaced over time

word	symbol

3. Resources that are limited and can't be replaced

word	symbol

4. Energy from moving water

word	symbol

5. Energy from once living material

word	symbol

6. Energy from the heat in Earth's core

word	symbol

7. Energy from moving air

word	symbol

8. Energy from the sun

word	symbol

9. Machine that produces energy (power) when it is moved by water, wind, or steam

word	symbol

10. Source of Earth's energy

sun

turbine

biofuel or biomass

renewable resources

alternative energy

wind energy

hydroelectric

geothermal

nonrenewable resources

solar energy
