7. **The wave lengths of the passive remote sensing ranges from**

a) 0.4 to 1.0 mm b) 0.8 to 2.0mm

c) 0.2 to 1.0 mm d) 0.6 to 0.4 mm

8. **Which of the following is the fastest computer in the world?**

a) Sunway TaihuLight b) Summit

c) Pratyush d) Param 10000

9. **GNSS satellites' orbit is situated about _____ km above the earth's surface**

a) 15,000 km b) 20,000 km

c) 10,000 km d) 22,000 km

10. **Which of the following is a geosynchronous satellite?**

a) INTELSAT b) Corona

c) MIDAS d) SAMOS

II. Very short answer

11. Differentiate the active and passive sensors.
12. Write a short note on Galileo GNSS.
13. Name the first GNSS system of the world. What is the name of the GNSS system of India?
14. Write a note on Drone.
15. Write any two services provided by IRNSS.

III. Short answer

16. Mention the three types of satellite's orbit with an example each.
17. Write a note on BeiDou GNSS.
18. Write any three characteristics of spy satellite.
19. Explain in brief about GLONASS.
20. Differentiate geostationary satellite and Sun synchronous satellite.

IV. Detailed answer

21. Explain the elements of remote sensing in detail.
22. Describe any three functions of GIS in detail.
23. Explain the applications of GNSS in the field of surface mining, precision agriculture and port automation.
