## ICT CORNER

# Magnetism

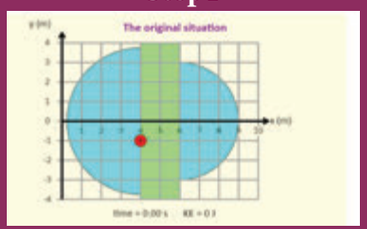

**Topic: Cyclotron**

In this activity you will be able to visualize and understand the working of cyclotron.

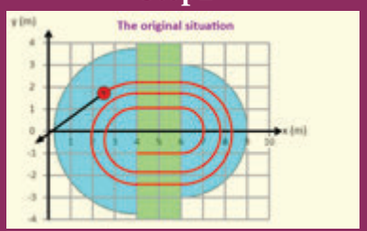

### STEPS:

- Open the browser and type 'physics.bu.edu/~duffy/HTML5/cyclotron.html' in the address bar.
- Click 'play' to release the positively charged particle between the D-shaped sections.
- Observe trajectory of positively charged particle under the magnetic field between D-shaped sections.
- Note the kinetic energy of the particle after some time (say t = 20 s)

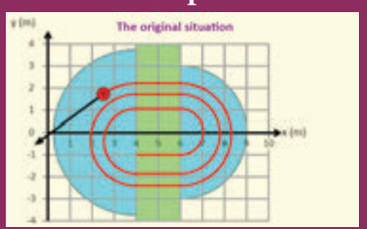

**Step1**

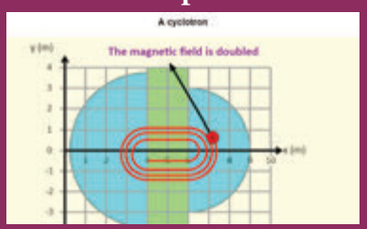

**Step2**

**Step3**

**Step4**

Double the electric and magnetic fields by clicking corresponding buttons and observe the change in kinetic energy for a particular given time t.
