The position taken by the US, not to back Pakistan during the Kargil war, for violating the LoC (Line of Control) was welcomed in India. In 2000, Clinton's visit to India was seen as the emergence of a new era in India-USA relations. Vajpayee befittingly referred to India as a neighbour and partner of the United States on the digital map. Further, science and technology, environmental sustainability, climate change, education, HIV, tsunami relief etc., became areas of collaboration. Subsequently, despite minor issues, US-India ties during the Bush administration continued on the same path of progress, lending the term 'natural allies' more meaning. The relations further matured into co-operation on defence, civil nuclear energy and enhanced people to people ties during the Obama administration.

TIMELINE: India-USA Relations

S. No	Year	Important Events
1	1949	Prime Minister Nehru Visits USA
2	1978	President Carter Visits India
3	1991	Economic Reforms
4	May 11, 1998	India Tests Nuclear Devices, USA imposes economic sanctions
5	2000	Clinton Trip Signals Warming Ties
6	2001	USA Lifts India Sanctions
7	2005	Energy Security Dialogue
8	2005	USA, India Sign New Defense Framework
9	2005	Landmark Civil Nuclear Deal
10	2010	Economic and Financial Partnership
11	2010	USA, India Hold First Strategic Dialogue
12	2010	Obama Backs India Bid for UN Security Council
13	2011	USA, India Ink Cybersecurity Memorandum
14	2015	Obama's Second India Visit Elevates Ties
15	2016	Obama Recognizes India as Major Defense Partner
16	2019	Trump Ends India's Special Trade Status

India–United States Civil Nuclear Agreement

The 123 Agreement signed between the United States of America and the Republic of India is known as the USA–India Civil Nuclear Agreement or India-USA nuclear deal.The framework for this agreement was a July 18 2005, joint statement by the Indian Prime Minister Manmohan Singh and the US President George W. Bush, under which India agreed to separate its civil and military nuclear facilities and to place all its civil nuclear facilities under International Atomic Energy Agency (IAEA) safeguards and in exchange the United States agreed to work toward full civil nuclear cooperation with India.

The deal places under permanent safeguards those nuclear facilities that India has identified as "civil" and permits broad civil nuclear cooperation, while excluding the transfer of "sensitive" equipment and technologies, including civil enrichment and reprocessing items even under IAEA safeguards.

On October 1, 2008 the USA Senate also approved the civilian nuclear agreement allowing India to purchase nuclear fuel and technology from and sell them to the United States.
